Summary

Proficient developer with over 6 years of experience in web development and related technologies. Always striving to deliver high-quality and robust software. Known for developing customer-facing products that deliver unique experiences while complying with internal coding standards and technical requirements.

Interested in real-time web and mobile applications, software design patterns & blockchain technologies. Everlearning with a strong desire to contribute to team and community growth.

Currently focused on React.js and related tools, such as Redux, Next.js, etc.

Experience

Web Developer

Freelance

May 2020 - Present (2 years 4 months +)

Currently, multi-tasking across multiple functions and roles to meet deadlines and client expectations, such as:

- Presenting front-end and back-end solutions with WordPress custom themes, JavaScript, TypeScript, React.js, Next.js, PHP, jQuery, AJAX, SCSS, and other modern web tools.
- Providing security maintenance and patching on website interfaces to maintain stability and integrity.
- Implementing changes and integrating requested elements to streamline business operations.
- Adhering to SEO best practices while implementing Google-based SEO and ad campaigns.

Web Developer

Studio Rubik

2019 - 2020 (2 years)

Responsible for both back-end and front-end development, including creating WordPress themes and plugins. Duties and responsibilities included:

- Designing and implementing new features and functionalities.
- Establishing and guiding the website's architecture.
- Ensuring high-performance and availability, and managing all technical aspects of the CMS.
- Helping build an effective, responsive design and turning it into a working theme and plugin.
- Good understanding of front-end technologies, including HTML5, CSS3, JavaScript, jQuery.
- Experience designing and developing responsive design websites.
- Utilizing debugging tools like Chrome inspector, Blisk, and other cross-browser testing tools.
- Understanding CSS changes and their ramifications to ensure consistency across platforms.
- Proficient understanding of code versioning tools such as Git.

- Understanding of PHP back-end development.
- Usage of the incredibly powerful module bundler Webpack.

Frontend Web Developer

Studio Kipo

2017 - 2019 (3 years)

Some of the duties and responsibilities included but were not limited to:

- Creating user-friendly web pages and interfaces.
- Maintaining and improving company-managed websites and interfaces.
- Converting comprehensive layouts and wireframes into working HTML pages.
- Providing high-quality vector graphics, visual elements, and complex CSS animations.
- Optimizing web applications for maximum speed and quality across devices.
- Staying consistent with brand guidelines and industry practices.
- Receiving feedback from users and customers.

Co-Founder & Junior Front-end Developer

LEAP Ltd

Apr 2014 - 2017 (3 years 9 months)

LEAP is a platform that lets you explore videos, events, people, and places within the extreme sports community. Clean design and carefully selected filters allow you to shape your own results in a way that is relevant to you, uncovering a world of exciting content.
